FOR HR AND GLOBAL MOBILITY TEAMS

Italian for your international team.

Private one-to-one Italian lessons online, with native Italian tutors. For employees moving to Italy, the partners who come with them, and new hires who need to work in Italian from day one.

Settle in faster

Employees and their families handle daily life in Italian: home, school, doctor, neighbours. Fewer support requests, a smoother assignment.

Work in Italian

Meetings, clients, suppliers, colleagues. Lessons built on the situations of their actual job, not on textbook dialogues.

Ready before arrival

New hires start online from their home country and arrive with the Italian they need, including sector vocabulary for healthcare and hospitality.

HOW IT WORKS

1 A free 12-minute level test for each employee.

2 We match each person with a native tutor for their goals and schedule.

3 50-minute one-to-one lessons online, at times that fit the working day.

4 Studio self-study units between lessons, included.

5 A monthly attendance and progress report for HR.

What HR gets

- One agreement and one invoice for the whole team
- Monthly report: lessons attended, cancellations, progress
- Certificate of attendance at 10, 25, 50 and 100 lessons
- Data processing agreement (GDPR) for your company

What employees get

- Their own tutor, chosen for their level and goals
- Lessons booked and moved in a few taps, from any device
- Self-study units on real situations, with voice corrections
- A notice on their phone before every lesson

Three programmes, shaped around your people.

RELOCATION

Settling in Italy

For assignees and their partners. Daily-life Italian from the first week: housing, shops, school, health, neighbours.

Typical length: 20 lessons per person.

PROFESSIONAL

Working in Italian

For managers and specialists already in Italy. Meetings, e-mails, phone calls and small talk with Italian colleagues and clients.

Typical length: 40 lessons per person.

PRE-DEPARTURE

Arrive ready

For groups of new hires recruited abroad, such as nurses and hospitality staff. An intensive path towards B1, with the vocabulary of their sector.

Typical length: 60 to 120 lessons per person.

Our tutors

Native Italian tutors, personally selected, with 5 to 7+ years of teaching experience. Each one trained on our method: real situations first, grammar when it helps.

Funding

Language training for your employees may be eligible for funding through your company's interprofessional fund account (for example Fondimpresa or Fondirigenti). We provide the attendance records these plans usually require.

A real lesson, in practice

A new team member in Milan has a meeting with a supplier on Thursday. On Tuesday, the lesson is that meeting: how to open it, how to ask for a delivery date, how to say no politely.

"Possiamo spostare la consegna a venerdì?" Can we move the delivery to Friday?

Tell us how many people, where they are and what they need.
We send you a programme and a quote within two working days.
